INDEX.

A

Abattoirs, 161
Abbott, Mr., health report of Braintree urban sanitary district, 952
A B C Pocket Diary and Memorandum Book for Physicians and Surgeons, the (review), 91
Abdomen, parotitis following injury to the, 527; pistol-shot wound of the, 934
Abdominal cavity, delimitations of, 418
—— operations, the employment of iodoform in, 1375
—— section, for subcutaneous rupture of the spleen, 931; perforating gastric ulcer treated by, 1067; report on, 302, 1260; performed in the gynæcological wards of St. Vincent's Hospital, Dublin, report on the, 294
—— tumour, cases of, 592
Abdomino-thoracic injury, treatment of, in the seventeenth century, 956
Aberdeen, health of, 894, 1544; University, rearrangement of salaries at, 430
Abortion, incomplete, case of, 1339; or miscarriage, incomplete case, 1255
Abraham, Dr. P., eruption on the face, 475
Abscess, rupture of tonsillar, into larynx, causing suffocation, 1515
Accidental death in Scotland, inquiries concerning, 944
Acid dyspepsia, the treatment of, 44
Ackland, Mr. R. C., apparatus for fracture of the lower jaw, 800
Acland, Dr., cases of generalised vaccinia, 362
"Acme" lens clinical thermometer, 478
Acne keloid, 250
Acromegaly, case of, 642
Action, thought and structure, the correlation of, 3
Acupuncture, an analysis of one thousand cases of primary sciatica, with special reference to the treatment of one hundred cases by, 860
Adair, Mr. S. F., a Concise History of the Rotunda Lying-in Hospital, Dublin (review), 1520
Adam, Dr. J. G., Contributions to the Physiology and Pathology of the Mammalian Heart (review), 534
Addenbrooke's Hospital, 1154
Adenoid growths, anæsthetics in operations for, 497
Adenoma of the kidney, 23
—— of the stomach, 730
Adulteration, milk, important decision, 1528
Advertisement, a delusive, 604
Advance of anthropology, the, 1527
Advertising dentists, 1179
Æsculapius Lodge of Freemasons, 394
Affleck, Dr., on myxœdema, 419; observations on diseases of the appendix vermiformis, 1140
African hæmoglobinuric fever, 728, 822, 1466
After-care Association, 200
Agathin, 1082
Aged, pensions for the, 805
Agnew, Dr. H., the late, 544
Ainley, Mr. D., health report of Halifax urban district, 56
Aitken, Dr. G. A., The Life and Works of John Arbuthnot, M.D. (review), 24
Aix-la-Chapelle, Ville d'Eaux (review), 253
"Akinesia algera," 668
Alabaster and others v. the Medical Battery Company, 539, 553
Alabone v. Morton, 1534
Albarran, Dr. J., Les Tumeurs de la Vessie (review), 26
Albion milk and sulphur soap, 31
Albuminuria, the significance of, 479, 556, 615; prognosis in, 557, 680, 955; chronic, some clinical features of, chiefly with reference to prognosis, 415, 778, 1320
Alcohol, intravenous infusion of, 1095, 1225
Alcoholic poisoning, acute, 431, 723
Alcoholism in Switzerland, 1526
Aldershot, infectious diseases hospital for, 1095
Alexander, Dr., Aix-la-Chapelle, Ville d'Eaux (review), 253
Algiers, the Practical Guide to (review), 366
Alien emigration, 876
Allen, Mr. A. H., Commercial Organic Analysis (review), 90
Allingham, Mr. H., compound depressed fracture of the skull, 249; removal of malignant growth of colon through inguinal colotomy incision, 591; the treatment of hæmorrhoids and prolapse of the rectum by clamp and cautery, 651; case of gastro-enterostomy, 931
Allylsulpho-carbamide, 1083
Alston, Dr. H., ascarides lumbricoides, 296; strange incidents in practice, 821
Ambulance detachments, Queen's review of the, 1164
—— service of London, 969
—— work in the north, 1541
American quackeries in Leeds and Walsall, 1356
Ammoniacal fermentation, gycosuria and, 1134
Amyl nitrite, poisoning by, 1453
Anachronism, an, should fully qualified medical practitioners be still designated "apothecaries"? 1539
Anæmia, acute, pyrexia in, 930
——, pernicious, treated by transfusion, recovery, 1133; and degenerations of the spinal cord, 1531
—— and chlorosis, the treatment of, by the chief iron preparations commonly in use, 352, 402
Anæsthetics, 222; deaths under, 158; in operations for adenoid growths, 497; THE LANCET Commission on, 629–638, 693–708, 761–776, 899–914, 971–976, 1111–1118, 1236–1240, 1479

ANALYTICAL RECORDS FROM THE LANCET LABORATORY. — various toilet preparations; liq. colchicæ salicyl; Liebig's extract of mutton; palatable cod-liver oil; Shuttleworth's cocoa essence; Dr. Theinhardt's food for infants and hygiama food; nutrient wine of beef peptone; bromo-soda, ingluvin and fluid extract of cascara sagrada; byno-hypophosphites; fire briquettes; Albion milk and sulphur soap; Brand and Co.'s meat juice, 29—Diurnules; lentiline biscuits; malto-pepsin; Caffyn's liquor carnis; granulated oatmeal; Blaud's pills; diabetic foods, 367—Walden's extract of rennet; fruit salt baking powder; Angier's emulsion of earth or rock oil with hypophosphites of lime and soda; biscuits containing syr. ferri phosph. co., 598—Non-irritating nursery powder; essence of beef and concentrated beef-tea; Harvest's lentil food; Dr. Langen's sugar of milk; purest ethylic æther; genuine old cognac; Vincerda coca wine; eucalyptus globulus oil (Platypus brand); soda water in syphons and a device to secure its greater organic purity, 799—Virol; tabloids containing (1) tar, (2) arsenite of copper and (3) effervescing belladonna and cubeb; oil and wine from the Duchy of Bronté, 1144—Reginaris and ferruginaris, natural mineral waters; Scotch whiskies; whole wheat flour with hypophosphites; mineral water of Santeuil (Seine-et-Oise), containing lithia salts, 1202

Anastasio Chinchilla, 68
Anatomical Society, the, 1173
Ancient medical bill, 397
Anderson, Dr. A. M., the Antiseptic Treatment of Typhoid Fever (review), 1201
——, Dr. John, clinical and therapeutical notes of two cases of aortic aneurysm, 12
——, Dr. Joseph, death of, 212
——, Dr. James, the late, 482; obituary notice of, 560
——, Dr. W., Mineral Springs and Health Resorts of California (review), 798
——, Mr. W., lecture on sterno-mastoid torticollis, 9
Andrew, Dr., retirement of, 944, 1081; testimonial to, 1213
Aneurysm, consolidated, case of, 532; tortuosity of artery simulating, 1385
——, aortic, clinical and therapeutical notes of two cases of, 12; the diagnostic significance of hæmoptysis in, 1000; a sign of, 1342
——, arterio-venous, 1000
—— of the popliteal artery, 130; diffuse popliteal, caused by an exostosis, 1214
——, thoracic, a large, 229
Aneurysms, traumatic dissecting, of thoracic aorta, 1197
Angier's emulsion of earth or rock oil with hypophosphites of lime and soda, 597
Angina Ludovici, a rapidly fatal case of, 1311
Anginophobia followed by suicide, 331
Angioma lipomatodes of the arm, case of, 1317
Animal cell, chemical physiology of the, 509, 575, 639
Ankle-joint, arthrodesis of the, in talipes varus due to infantile paralysis, 1129
Ankylosis of the jaw, 1189
Anomalies of pharmacy, 1330
Anson, Dr. G. E., case of gastric perforation, 469
Anthelmintic, thymol as an, in filariasis, 387
Anthropological romance, an, 1271
Anthropology, the advance of, 1527
Anthropometry, the Bertillon system of, 433
Anti-choleraic vaccinations, 653
Anti-opium circular, the, 292; and Dr. Mouat's charges, 191
Anti-vaccination, contempt of law, 1015
Antipyrin in lead colic, 92
Antisepsis, the importance of, in dental surgery, 210
Antiseptic management of wounds, 179, 285, 345
—— midwifery, 722, 724
—— surgery, 368
Antiseptics, essences as, 1227
Antrum, empyema of the, the etiology of, 1097
Antipyretics of the aromatic series, the action of, on the blood, 377
Anus, imperforate, operated on by a para-coccygeal incision, 1518
Aortic disease and pulmonary tuberculosis, case of, 1065
—— incompetence, cases of, 22

Aphasia due to a fall on the head, 726
Apoplexy of the pancreas attributed to seasickness, 101
"Apothecaries," should fully qualified medical practitioners be still designated as, an anachronism, 1539
Apothecaries' Hall, the new buildings at the, 1401; the new diploma of the, 1421, 1477
—— licence, the sufficiency of the, 1109
Appeal, an, 121
Appendicitis, perforative, case of, 1260
Appendix vermiformis, observations on diseases of the, 1140
Arbuthnot, John, Life and Works of (review), 24
Arcachon, Handbook to (review), 1323
Archives de Neurologie (review), 1201
Aretaeus, Dr. T., death of, 1215
Arlidge, Dr. J. T., Hygiene, Diseases and Mortality of Occupations (review), 533
Arm, tuberculosis of skin of, 248; fracture of the, complicating nerve injuries, 862, 928; angioma lipomatodes of the, case of, 1317
Armstrong, Dr., health report of River Tyne port sanitary district, 677
——, Mr. H. E., collisions between general practitioners and medical officers of health, 1286
Army estimates for 1893-94, 533
—— field hospitals in war, 1340
—— medical changes, 57
—— Medical Service, the, 1207, 1392; the unreadiness of the, for war, 1337
—— Medical Staff, annual dinner of the, 1458; movements of the, 110, 166, 219, 271, 326, 385, 443, 494, 555, 614, 679, 749, 819, 885, 953, 1034, 1093, 1163, 1219, 1283, 1336, 1408, 1462
Arnaldo Cantani, obituary notice of, 1171
Arrow poison, the properties of, 1158
Arsenic, small dose of, susceptibility of a patient to, 297; in cholera, diabetes and asthma, 406
Arsenical poisoning, chronic, 301
Arterial degeneration, the frequency of, amongst British soldiers and sailors, its cause, 482
—— tension and excretion of urates, effects of iodides on, 85
Arterio-venous aneurysm, 1600
Artery, tortuosity of, simulating aneurysm, 1384
Arthrodesis of the ankle-joint in talipes varus due to infantile paralysis, 1129
Ascarides lumbricoides, 296; and epilepsy, 447
Ascites, a plea for the operation of paracentesis abdominis in the treatment of, 721; chylous pleurisy and, case of, 1197
Ascitic fluid, a ferment common in, 162
Asepsis and suppuration, 1287
Aseptic pocket-case, an, 1390, 1477
Ashby, Dr. H., Diseases of Children, Medical and Surgical (review), 89
Asleep or dying? 101
Asphyxia, peripheral, with formation of fibrous nodules, 475; fatal, following the self-administration of nitrous oxide gas, 1319
Aspiration in hydrothorax, case illustrating the benefit of, 1192
Asthenopia, Eye-strain, commonly called (review), 27; nervous ocular, in school children, 1382
Asthma replacing epileptic fits in an idiot, 1383
Aston Manor urban sanitary district, health report of, 748
Athleticism, physical and mental, 1449
Athletics in aid of hospitals, 210
Atkinson, Mr. F. P., the drainage of middle-class dwellings, 168; house-to-house visitation, 274; are disease germs in milk destroyed by boiling? 289
——, Canon, Scenes in Fairyland (review), 28
Atrophy, progressive muscular, 475
Atropine, the use of, in cholera, 1443; and morphine, physiological action of, on the secretion of urine, 935
Attorney-General v. Corporation of Manchester, 503
Auckland district, infantile mortality in the, 391
——, the climate of, 690
Augenheilkunde, Handbuch der (review), 1445
Augenleuchten, das, und die Erfindung des Augenspiegels (review), 1069
Auld, Dr. A. G., hemicrania hysterica, a contribution to the pathology of migraine, 850
Aural pyæmia treated by operation, 822
Auscultatory percussion of the skull, 14
AUSTRALIA, CORRESPONDENCE FROM.—The management of Australian hospitals, 825; Mr. M. Doyle and medical advertising, 1343
Australia, rickets in, 820; should phthisical patients be sent to? 939
Australian frozen meat for the army, 273
—— hospitals, the management of, 825
Austrian portable field hospital, an, 1284
Auvard, Dr. A., Formulaire Obstétrical (review), 1201
Axilla, lacerated wound opening the, simulating a stab, 141
Axillary artery, left, embolism of the, 245
Ayr police court, medical evidence in the, 876

B

Baby-farming and death certificates, 429
Bacillary theory of consumption, the logical consequences of the, 1139
Bacilli, the proof of the presence of, in diphtheria, 969
—— in butter, 268
Bacillus of influenza, the, 969
Bacteria, the action of light on, 383
Bacteriological World, the (review), 432
Bacteriology, a Manual of (review), 42°, 1088; vacation course in, 605; in London, 1091; of the Leprosy Commission, 1153
Bacup urban sanitary district, health report of, 952
Bailey, Dr., health report of Bilston urban district, 952
——, Mr. R. J., Chemistry for All (review), 1446
Baker, Mr. A., obituary notice of, 172
Bakeries and bread-making, 942
Bakewell, Dr. R. H., acute pemphigus in a girl aged seventeen, 1194
Ball, Dr. B., death of, 488; obituary notice of, 562
——, Dr. C. B., cases of cerebral surgery, 1387
——, Mr. E. A. R., Mediterranean Winter Resorts (review), 91
Ballance, Mr. C. A., intravenous infusion of alcohol, 1095
Ballantyne, Dr. J. B., the Structures in the Mesosalpinx (review), 1445
——, Dr. J. W., the Diseases and Deformities of the Fœtus, an attempt towards a System of Ante-Natal Pathology (review), 198
Balmer, Dr. H., death of, 315
Balneological Society, annual meeting of the, 812
Bampton, Dr. A. H., medical aid associations, 1409; influenza epidemic and drains, 792
Bandage, a too indestructible, 454, 569, 647
Banks, Prof. W. M., the annual oration delivered before the Medical Society of London, 1049
Barford, Mr. J. G., medical officers of health and general practitioners, an important question, 1095, 1338
Barium salts, toxic effects of, 377
Barker, Dr. C., two cases of strangulated femoral hernia, with recovery after operation, 16
——, Mr. A. E., case of torsion of the spermatic cord, with strangulation of the testicle, 792; ankylosis of the jaw, 1129; subserous uterine hæmatocele in a girl aged eleven, 362; tuberculous ulceration of the mouth, 475; epithelioma of lip, 726; modified Pirogoff's operation, ib.
Barnardo's (Mr.) Homes 1390
Barnes, Dr. R., the significance of albuminuria, 615
Barnsley rural sanitary district, health report, 748
—— urban district, health report of, 1033
Baroffio, General, obituary notice of, 1544
Baron N. Rothschild's gift to Vienna, 1415
Barr, Dr. J., typhoid fever and its management, 1119
Barrs, Dr. A. G., treatment of certain cases of chorea by hypnotics, 1181
Basford rural district, health report of, 55, 1161
Bateman, Dr. A. G., death certification, 1538
Batley urban sanitary district, health report of, 1282
Battle, Mr. W. H., cases of abdominal tumour, 592; on patent Meckel's diverticulum, 726; some surgical affections of the hand, 781; case of abdominal section for subcutaneous rupture of the spleen, 931
Bawden, Dr. J. R., rupture of the patellar attachment of the left quadriceps extensor cruris, 297
Bays, Dr. J., glycosuria and ammoniacal fermentation 1134
Beach, Dr. F., presentation to, 394
Beadles, Mr. C. F., case of ruptured heart, 300; papillomatous growth of ovary, 957; a case illustrating the benefit of aspiration in hydrothorax, 1192
Beale, Mr. P. T. B., sacro-iliac disease, with notes on its treatment, 650; gangrene of anterior flap after amputation, subsequent skin grafting, 651
Beatty, Dr. W., case of myxœdema, 1261
Beaumont, Mr. W. M., associated movement of the upper eyelid and lower jaw, 858
Beck, Professor M., obituary notice of, 1343
Beef-essence and concentrated beef-tea, 799
Beevor, Dr. C. E., aphasia due to a fall on the head, 726
Beissel, Dr., Aix-la-Chapelle, Ville d'Eaux (review), 253
Belfast, report of the health of, for 1892, 1099
Belgium, spurious vaccination in, 98
Belot, Dr. F. J., death of, 606
Belvidere Hospital, Glasgow, 161
Benghasi, famine and typhus fever in, 552
Benham, Dr. F. L., treatment of certain cases of shock by saline injections, 887; psoas abscesses, fatal through renal complications, 1066
Bennett, Dr. W., some remarks on the pathology and treatment of typhoid fever, 642
——, Mr. E. H., on fracture of the neck of femur, 730
——, Mr. F. J., orthodontia, 1410
——, Mr. W. H., on some cases of chronic tumour of the breast, 979
Benson, Mr. A. H., nephritis of obscure origin in several children of one family, 588
Benzosol, the use of, in diabetes mellitus, 560
Bergmann, Professor E., Anleitende Vorlesungen für den Operations-Cursus an der Leiche (review), 1263
Beri-beri, micro-organisms in, 432; the causes of death in, 467

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

BIRMINGHAM GENERAL HOSPITAL.—Prostatectomy performed twice on the same patient, the second time with complete success, 1335

CHISLEHURST, SIDCUP AND GRAY VALLEY COTTAGE HOSPITAL.—A case of fracture with dislocation in the cervical region; necropsy, 359

DEVONSHIRE HOSPITAL, BUXTON.—A case of Raynaud's disease, 144

EVELINA HOSPITAL FOR SICK CHILDREN.—Cases of facial paralysis of rheumatic origin in children; implication of the soft palate, 18

GREAT NORTHERN CENTRAL HOSPITAL.—Gangrene of anterior flap after amputation; subsequent skin grafting, 651

HOSPITAL FOR SICK CHILDREN.—Two cases of separation of the lower epiphysis of the femur associated with tuberculous disease of the knee-joint, 194—Acute osteo-myelitis of upper humeral diaphyses; double resection; recovery, 473

KING'S COLLEGE HOSPITAL.—Pyæmic thrombosis of the lateral sinus following acute otitis; sinus opened and internal jugular vein dissected out; recovery, 471

LEEDS GENERAL INFIRMARY.—A case of Porro's operation at the full term of pregnancy for myoma; recovery of mother and child, 414

LINCOLN COUNTY HOSPITAL.—Case of swallowing a razor; gastrotomy; death, 20—Two cases of tumour of the brain, 652

LIVERPOOL CHILDREN'S INFIRMARY.—Case of scarlet fever with purpura, 299

LONDON HOSPITAL.—A case of nerve transplantation; remarks, 1516

MANCHESTER ROYAL INFIRMARY.—A case of myelitis simulating hæmatomyelia by its sudden onset; unilateral analgesia and thermo-anæsthesia; grey matter chiefly affected, 142

MIDDLESEX HOSPITAL.—Case of lacerated wound opening the axilla, simulating a stab, 141—Case of diffuse radicular lymphangiectasis and lymphoma after a lymphatic abscess, the sequel of variola, 298—Two cases of circular urethrorrhaphy, 1135—A case of angioma lipomatodes of the arm, 1317—Amputation at the shoulder-joint for necrosis of humerus, 1384—Tortuosity of artery simulating aneurysm, 1384

NEWCASTLE-ON-TYNE ROYAL INFIRMARY.—A case of lumbar nephrectomy for calculous kidney and one of abdominal nephrectomy for sarcoma; recovery, 196—Four consecutive cases of nephrectomy, 997

NORTH-WEST LONDON HOSPITAL.—Loculated pleuritic effusion; necropsy; remarks, 1441

ROYAL FREE HOSPITAL.—Phosphorous poisoning; no symptoms for six weeks; then jaundice and sudden death after six days, 245—Pneumonia followed by ulcerative endocarditis and meningitis, 357

ROYAL HOSPITAL FOR CHILDREN AND WOMEN. Congenital cystic hygroma of neck treated by dissection and iodine, 17

ROYAL PORTSMOUTH, PORTSEA AND GOSPORT HOSPITAL.—Case of large hæmatocele of the broad ligament and in ra-cystic hæmorrhage; peritonitis; abdominal section; recovery, 1064

ROYAL VICTORIA HOSPITAL NETLEY.—Case of scirrhous cancer of thechest, 1318

ST. BARTHOLOMEW'S HOSPITAL.—Two cases of laparotomy, one for rupture of the female bladder and the other on acute localised inflammation of the ascending colon, 412—Intestinal obstruction produced by a band; absence of marked symptoms for five days; laparotomy; recovery, 588

ST. MARY'S HOSPITAL.—Acute peritonitis; abdominal section; ovariotomy; recovery, 1062

ST. SAVIOUR'S UNION INFIRMARY, EAST DULWICH GROVE.—Ulcerative endocarditis of malarial type in a man who had formerly had ague, 724

ST. THOMAS'S HOSPITAL.—Notes of a fatal case of strychnine poisoning; remarks, 83—Treatment of the ulcerative lesion in laryngeal tuberculosis, with some remarks on the constitutional treatment by large doses of creasote, 526—Torsion of colon in sac of umbilical hernia; gangrene of gut; resection of greater part of transverse colon; establishment of artificial anus; recovery, 997

SALFORD ROYAL HOSPITAL.—Three cases of strangulated hernia in which washing out of the stomach was employed, 246

SEAMEN'S HOSPITAL.—Abscess of liver which resulted in death from septicæmia, 19—Spasmodic torticollis; recovery after excision of portion of spinal accessory nerve, 928

SOUTH DEVON AND EAST CORNWALL HOSPITAL.—Parotitis following injury to the abdomen, 527

TIVERTON INFIRMARY.—Gunshot wound of the head with laceration of the brain; hernia cerebri; recovery, 1517

TORBAY HOSPITAL, TORQUAY.—A case of acute myelitis; complete recovery, 84—A case of diver's paralysis, 1063

UNIVERSITY COLLEGE HOSPITAL.—A case of torsion of the spermatic cord with strangulation of the testicle, 792—A case of nerve suturing and one of nerve grafting, 1194

VICTORIA HOSPITAL FOR CHILDREN.—A congenital sternal dimple, 832

WARRINGTON HOPE HOSPITAL.—Case of Eruption resembling that of variola; remarks, 28

WEST LONDON HOSPITAL.—Chronic ulcer of stomach; perforation of diaphragm; empyema; remarkable absence of gastric symptoms; death, 1256

WOLVERHAMPTON GENERAL HOSPITAL.—Nerve injuries complicating fractures of the upper extremity, with six cases, 862, 928

YORK COUNTY HOSPITAL.—Amputation at the hip-joint for sarcoma of the femur; strangulated hernia with unusual symptoms, 793—A case of traumatic sarcoma of the skull, 1441

YORK ROAD GENERAL LYING-IN HOSPITAL.—A case of tracheotomy in an infant three days old, 195

Pemphigus, 1357; acute, in a girl aged seventeen, 1194
Penberthy, Mr. J., ascarides and epilepsy, 447
Pencil-holder for making outlines of limbs &c., a, 1005
Peninsula, the army surgeon in the, 272
Penis, gouty (?) induration of, 1518
Penrith, the water-supply of, 1341
Penrose, Dr. F. G., abscess beneath the diaphragm in connexion with perforating gastric ulcer, 145
Pensions for the aged, 805
Percutaneous therapeutics, ether in, 997
Perez, Dr. G. V., Orotava as a Health Resort (review), 1389
Perforating ulcer of the duodenum, 1193
Peripheral asphyxia with formation of fibrous nodules, 475
—— neuritis, exceptional cases of, 727; central changes in, 1331
Peritoneum, the sensitiveness of the, 125, 221, 273, 387, 447, 496, 525; hepatic pus in the, 924
Peritonitis, tuberculous, laparotomy in, 434; tuberculous, simulating malignant tumour, 730; from perforation of the vermiform appendix by a fæcal concretion, death from hæmorrhage, 1061; acute, abdominal section, ovariotomy, 1062; and pleurisy caused by streptococci, 1387; double ovariotomy performed during an attack of, 1440
Personal hygiene, our schoolmasters and, 542
Peshawar, the sickness at, 58, 556
Peter, Professor, obituary notice of, 1469
Pettenkofer, Professor, on the Hamburg cholera epidemic, 1217
Pharmaceutical profession in Italy, the, 452
—— Society, annual dinner of the, 1201

PHARMACOLOGY AND THERAPEUTICS.—The treatment of acid dyspepsia; dulcine; identity of caffeine and theine; Indian opium; toxic properties of oxide of zinc; eucalyptol; pyrexia in unicellular organisms; losophan, 44—Antipyrin in lead colic; artificial camphor; poisoning by evalgine dispensed instead of quinine, 92—Trional as a hypnotic; tremulin, the poisonous alkaloid of darnel seeds; sulphate of codeine in the morphine habit; a ferment common in ascitic fluid, 162—Toxic effects of barium salts; chloride of zinc in pulmonary tuberculosis; naphthol as a vermifuge; borate of soda in paralysis agitans; the action of antipyretics of the aromatic series on the blood; bromide of ethyl anæsthesia, 377—Methylene blue in malarial fever; the manufacture of nitrobenzol and di-nitro-benzol; caution respecting sulphate of copper in gynæcology, 545—Agathin; the treatment of tetanus; mixed collyria; allylsulphocarbamide; diagnosis of hysterical epilepsy by the urine; biborate of soda in epilepsy; pure neutral woolfat, 1082

Pharmacology, the synopsis of, 1672; at the Conjoint Board, 1158
—— of the organic oximides, the, 1530
Pharmacopœia, the posology of the, 140
——, Extra, the (review), 27
Pharmacy, the thyroid gland in, 396; anomalies of, 1330
Pharyngotomy, lateral, as a method of treatment in malignant disease of the tonsil, 1368
Phenomena, light and frequency, 1536
Phenyl-hydrazine test and sugar in the normal urine, the, 374, 496
Phillips, Dr. J., extra-uterine gestation, 865; medical aid associations, 1409
Phosphates, suppression of, in fever, 1332
Phosphorus poisoning, no symptom for six weeks, then jaundice and sudden death after six days, 245
Photo-micrography, Guide to the Science of (review), 149
Photophobia, simple, treated by the continuous current, 300
Phrenic and inferior laryngeal nerve, the relationship between the, 128
Phthisical patients in Paris hospitals and their cost, 559; should they be sent to Australia? 939
Phthisis, some points in the treatment of, 656; the prevention of, 729; expectoration of bronchial casts after hæmoptysis in, 1194, 1316; as a nervous disease, 1421
Phylloxera, revival of an ancient remedy for, 115
Physic, the Gresham lectures on, 809
Physical and mental athleticism, 1449; exercises and fencing, 1452, 1538
—— and social training of young officers, 750
Physician in Parliament, the, 428; in high places, the, 482
Physiological effect of magnets, 945
—— styptics, the preparation and employment of, 435
Physiology, the Journal of (review), 366, 422; Elementary, for Students (review), 1143
Picric acid method of estimating the amount of sugar in the urine, 524
Pilkington, Mr. H., two fatal cases of poisoning by strychnine, 1513
Pinard, Professor A., symphysiotomy at the Clinique Baudelocque during 1892, 347
Pirogoff's method, modification of, 726
Pitt, Dr. G. N., thrombosis of the pulmonary artery without infarction, 251; peripheral asphyxia with formation of fibrous nodules, 475; the use of venesection in the treatment of symptoms arising from thoracic aneurysm, 729; pseudo-bulbar paralysis due to a lesion in each cerebral hemisphere, 1197
Pituitary body, tumour of the, some clinical notes on a case of, 921
Pityriasis rosea, case of, 658
—— rubra, case of, 532
Plants, poisonous, 1541
"Platinum" anti-corset, the, 422
"Plethora universitaria," 189
Pleura, primary carcinoma of the, 932
Pleural effusion at the rate of three and a half fluid ounces an hour, case of, 649
Pleurisy, sudden death in, 433; pulsating, and pneumothorax, paracentesis of the chest in cases of, 133; complications occurring in, 1512
Pleuritic effusion, labour complicated by, 1124; loculated, with necropsy, 1441
Plumbism in various forms, 1518
Plummer, Dr. S. W., on cancer plasters, 682, 759
Plymouth urban and port districts, health report of, 1032
Plympton St. Mary rural sanitary district, health report of, 748
Pneumonia, acute lobar, hæmoglobinuria complicating, recovery, 1511
—— the weather and, 41; followed by ulcerative endocarditis and meningitis, 357; certain physical signs met with in a case of, 980
—— and enteric fever, on some anomalies in the clinical manifestations of, 852, 919
——, croupous, in children, 726; acute lobar, administration of oxygen and hypodermic injections of strychnia in, 992
Pocklington, Mr., health report of Wimbledon urban sanitary district, 1092
Poisoning as a profession, 1220
Poisonous plants, 1541
Poisons, the sale of proprietary medicines containing, 373
Police-court fees, 1234
—— surgeons in the United Kingdom, 1465
Polio-encephalomyelitis, acute case of, 1259
Polypus, intra-cardiac, 300; fibrous, of prostatic urethra, 589
Poole, Dr. T. D., Vaccination Eruptions (review), 1004
Poole urban and port sanitary districts, health report of, 678
Poor, our homeless and nomadic, 38; medical emergencies of the, 943; dwellings of the, 1173
Poor-law Medical Officers' Association, 489; disproportionate stipends of, 623
Poore, Dr. G. V., the Seventh International Congress of Hygiene and Demography, 1166
Poplar and Stepney Sick Asylum, retirement of and testimonial to Dr. Goldie, 666
Popliteal aneurysm, diffuse, caused by an exostosis, 1214
—— artery, traumatic aneurysm of the, 130
Population, statistics of, 283, 690
Porro's operation at the full term of pregnancy for myoma, recovery of mother and child, case of, 414
Port districts, imperial subventions for, 1013
—— Sanitary Conference, 424
Post-office, Coldbath Fields, 1225
Post-mortem tables, 228
Post-nasal growths in children, 383
Post-partum hæmorrhage, 917, 1097
Post-scarlatinal diphtheria, 531, 626
Power, Mr. D'A., the relationship between wryneck and congenital hæmatoma of the sterno-mastoid muscle, 247; congenital hypertrophy of both feet, 1518
Powers, Mr. C. H., strain as a cause of enlargement of the inguinal glands, 1477
Pozzi, Dr. S., a Treatise on Gynæcology, Clinical and Operative (review), 1199
Practice, strange incidents in, 240, 446, 821
Pregnancy, the vomiting of, fatal case of, 412
Preliminary scientific examination for medical students, 1209
Premier, the, on medical fees, 482, 568
Prendergast, Dr. W. C. D., compound comminuted fracture of the skull with injury to brain, recovery, 993

PRESENTATIONS.—To Mr. F. H. Lewis, 118; to Mr. G. Evans, 280; to Mr. J. Green, 333; to Dr. F. Beach, 394; to Dr. R. Skimming, 426; to Mr. E. C. Stirling, 503; to Dr. W. S. Saunders, 623; to Dr. R. W. Goldie, 666; to Dr. Mackay, 730, 894; to Dr. J. Gibson, 953; to Mr. W. Hull, 1005; to Mr. M. J. Collins, ib.; to Dr. W. C. Carter, 1042; to Mr. S. Moore, 1412; to Mr. R. M. Craven, 1415; to Mr. N. S. Manning, ib; to Dr. M'Bean, 1468; to Mr. Lewis-Hughes, 1472

Presidency armies in India, the proposed abolition of the, 1094
Pressure pouch of œsophagus, removal of, 999
Prevention of cruelty to children, the, 1173
Preventive Medicine, British Institute of, 388, 446; at Oxford, 807
Price, Mr. W., death of, 212
Prichard, Dr., health report of Cardiff rural sanitary district, 1092
Priestley, Dr. J., outbreak of enteric fever in Leicester, 135; small-pox at Leicester, 619; small-pox and vaccination in Leicester, 1159
Prince Ferdinand of Bulgaria, illness of, 669
—— of Wales, visit to the Lambeth Infirmary, 427
Principal, the liability of a, for the errors of a locum tenens, 876
Printers abroad, the health of, 1528
Prior Eabere, the founder of St. Bartholomew's Hospital, 1415

Pritchard, Dr. U., pyæmic thrombosis of the lateral sinus following acute otitis, sinus opened and internal jugular vein dissected out, recovery, 471
——, Mr. E. J., foreign body in the ear for twenty-one years, 1383
Private drains and public sewers, 1012
—— practice, Scotch medical officers of health and, 1159
Prize essays open to Englishmen, 1338
Prodigy, the pathology of the, 1211
Profession, yearly records of the, 96; another insult to the, 1234; superfluous numbers in the, 1356
Professional education and the General Medical Council, 1327
—— touting, 101
Prognosis, some clinical features of chronic albuminuria chiefly with reference to, 415
Progressive muscular atrophy, 475
Prohibition and drunkenness, 1457
Proper sentiment towards a new-comer, the, 1477
Proprietary medicines containing poisons, the sale of, 373
"Pro Silvis," 870
Prostate, malignant disease of the, 587
Prostatectomy, supra-pubic, 527; performed twice on the same patient, the second time with complete success, 1385
Prostatic enlargement, on the diagnosis of the different forms of, 59
—— urethra, fibrous polypus of the, 589
Protective inoculation against cholera, 307
Protozoa, parasiticism of, in carcinoma, 231
Provident dispensaries, the degeneration of, 1071
—— Surgical Appliance Society, 394
Provinces, small-pox in the, 740
Prussia, cholera in, 559
Pseudo-bulbar paralysis, 726; due to a lesion in each cerebral hemisphere, 1197
Pseudo-hypertrophic paralysis, 250
Psoas abscesses fatal through renal complications, 1066
Psorospermial growth from cat's lip, 1065
Psorosperms, cancers of various organs and non-cancerous mammary cysts due to, 146, 229, 328; and cancer, 273
Public, the right of the, to demand instant attention from medical men, 157
—— Analysts, Society of, 65, 393; difficulties of, 438
—— health, the Ministry and, 93; a prize essay in, 210; Act, the, 264, 315
—— Health and its Application in different European Countries, a Treatise on (review), 659
—— Health Laboratory Work (review), 1322
—— health laws in Russia, increased stringency in the, 1543
Pudsey urban district for 1892, health report of, 384
Puerperal eclampsia, cases of, 193, 1255; tetany as a sequela of, 130
—— fever, 22; definition of, 956, 1035; the prevention and cure of, 1210; or typhoid fever? 1315
Pulmonary abscess communicating with the posterior mediastinum, 1196
—— artery, dilatation of, 248; thrombosis of the, without infarction, 251; embolism of the, death occurring six hours and a half subsequently, 859
—— tubercle, general emphysema as a result of, 996
Pupillary membrane, persistent, 301
Pupils, eccentricity of, due to faulty position of head and eyes, 141
Purcell, Mr. F. A., excision of rectum and part of the sigmoid flexure (twelve inches) for malignant disease, 723
——, Mr. J. G., report of THE LANCET Special Sanitary Commission of Inquiry concerning the Water-Supply of Chicago, 956
Purpura, scarlet fever with, 299; rapid production of, after small doses of iodide of potassium, 471; in the newly-born, 1261
Purser, Dr., thrombosis of veins of Galen, 1387
Puschmann, Professor, works by, 430
Putney mystery, the, 205
Pyæmia, treatment of a case of, resulting from disease of the middle ear, 138; aural, treated by operation, 522
Pyæmic thrombosis of the lateral sinus following acute otitis, sinus opened and internal jugular vein dissected out, recovery, 471
Pye-Smith, Dr. P. H, an Introduction to the Study of Diseases of the Skin (review), 1002; on papillomatous ovarian tumours, 1064
Pyloric obstruction, gastro-enterostomy for, 1260
Pyloroplasty, 1274; for non-malignant stenosis of the pylorus, case of, 1183
Pylorus, non-malignant stenosis of the, pyloroplasty for, case of, recovery, 1183
Pyosalpinx, double, a rare form of, 82
Pyrexia in unicellular organisms, 44
—— in acute anæmia, 930

Q

Quadriceps extensor cruris, rupture of the patellar attachment of the left, 297
Qualified nurses (?), 1287
Qualitative Analysis Tables and the Reactions of Certain Organic Substances (review), 937
Quarterly Journal of Microscopical Science (review), 29, 1201
Queen Mary, Scottish medicine in the days of, 1453

Z

Zoology of the Invertebrata (review), 1591
Zymotic diseases, prevalence of, 422

[*For List of Illustrations see next page.*]

LIST OF ILLUSTRATIONS.

COLOURED.

Specimen of Fibroid Phthisis, accompanying a Lecture by Sir Andrew Clark, Bart., M.D., F.R.S., entitled Instructions in Medicine, 1

Tinted Plate illustrating the Fall of Man, accompanying the report of a Lecture, with Diagrams depicting the Correlation of Structure, Action and Thought, delivered by Dr. Lauder Brunton, 2-8

Origin of the Sterno-mastoid, with the Relations of its Tendons (Mr. W. Anderson), 11

Sites of Aortic Aneurysm, three figures (Dr. J. Anderson), 12, 13

Mask of Face of a Patient suffering from Erythema (Dr. Fisher), 15

Sketch of Infant suffering from Congenital Hygroma of Neck (Mr. Sheild), 18

Chloroform Inhaler (Krohne and Sesemann), 31

Hospital Dressers' Table (Mr. Carter), 32

Houses and Premises in Havre and Rouen in which Cholera existed, 48-51

Forres Leanchoil Hospital, 55

Distended Fallopian Tube, two examples (Mr. Butler-Smythe), 82

Improved Lacrymal Director and Probes (Dr. Jeaffreson), 92

Combined Thermometer, Pencil and Chart Tablet, 92

Diagrams showing the Area of Myelitis (Dr. Williamson), 143

New Thermometer Case (Mr. N. Nixon), 151

Diagrams illustrating the Areas of Numbness in a Case of Syringomyelia, along with the Appearances after Death in the Cord (Dr. J. Taylor), 187-189

Sections of Permanent and Portable Iron Hospitals, with Plan, 215-17

Illustrations of Parasitism of Protozoa in Carcinoma (Dr. Galloway), 231-234

Sketches of Results of Excision of the Knee-joint (Mr. A. G. Miller), 238

Unequal Growths of Fingers (Mr. Hawkins-Ambler), 244

Tracings showing that Chloroform has no Direct Action on the Heart (Dr. E. Lawrie), 290-92

The Absolute Fire Alarm, Figures of Parts of the, 305, 306

Charts showing the Results of the Treatment of Anæmia and Chlorosis by Iron (Dr. A. Smart), 35-355, 402, 403

Maps of Calais, depicting the Haunts of Cholera during the Autumn of Last Year, 381

New Ecraseur Snare (Mr. G. C. Wilkin), 422

New Forceps for the Extraction of Bullets, 423

Map of Dunkirk, showing the Parts of the Town where Cholera prevailed Last Year, 437

The "Acme" Lens Clinical Thermometer, 478

New Binaural Stethoscope, 478

Diagrams and Maps to illustrate the Course of the Cholera Epidemic in Russia in 1892 (Dr. Clemow), 515, 583, 647, 789, 1053-57.

Diagrams showing the Proportional Deaths from Cholera at Marseilles during September, October and November of last year, 551

Portraits showing the Results on a Cretin Patient of the Treatment by the Hypodermic Injection of Thyroid Extract (Dr. E. Carmichael), 580-1.

Dean's Clinical Thermometer, 598

Map of Boulogne and Vicinity, showing the Extent and Intensity of the Recent Cholera Epidemic, 608

Figures illustrating the Condition of a Patient affected by Acromegaly (Dr. J. M. Whyte), 642-43.

New Form of Bullet Extractor, 661

Chart recording the Alternations of Temperature in a Case of Ulcerative Endocarditis (Dr. T. Fisher), 725.

A Warty Ovary and a Villous Tumour of the Kidney (Mr. Bland Sutton), 777

Figure illustrating a case of Dupuytren's Contraction of Palmar Fascia; another showing Backward Dislocation of the Finger on the Metacarpus (Mr. Battle), 781, 783

Apparatus for reducing Fractures of the Lower Jaw (Mr. Ackland), 800

Chart illustrating Collection of Samples derived from the Chicago River, 835; Diagrams showing the Condition of the same River, 837; and the Sewerage and Water-supply Systems, 843

Portraits of a Patient affected with Synchronous Movements of the Upper Eyelid and Lower Jaw (Mr. Beaumont), 858-9

Representation of a Congenital Sternal Dimple (Dr. W. W. Ord), 862

Empyema Drainage Apparatus, 868

Maps illustrating the Incidence of Cholera in France in 1892, 880-1.

Representation of a Tumour of the Pituitary Body (Dr. Waddell), 922

Specimen of Factitious Urticaria (Dr. J. H. Thompson), 924

Diagrams representing the Number of Victims of Cholera in Paris from 1832 to 1892, 947-8.

Illustrations showing the Condition of the Eyes, both before and after operation, in a Patient suffering from Suppuration in the Ethmoidal Cells (Mr. W. R. H. Stewart), 994

Photographic representation of the Comparative Condition of Two Patients suffering from Small-pox, with and without Vaccination respectively (Mr. Manning), 996

Pencil-holder for making Outlines of Limbs (Mr. E. M Little), 1005

Plans of Rowton House Common Lodging-house, with Interiors, 1017-23

Table of Dietary Standards as compared with Actual Dietaries enjoyed by Persons of Various Classes, 1029

Map of Marseilles, showing the Incidence of Cholera Outbreaks in the City, 1084-85

Diagrams representing Areas of Anæsthesia &c. in Cases of Hysteria (Dr. Michell Clarke), 1125-27, 1186-88

Illustration showing the Course of a Fistula communicating with the Mastoid Cells (Mr. Sheild), 1128

Representations of the Result of Treatment of Myxœdema by Thyroid Extract (Dr. Murray), 1131

Sectional Diagram of the Warming and Ventilating Arrangements adopted in the Imperial Institute, 1157-8

Illustrations of the Mode of Incising and Ligaturing in a Case of Pyloroplasty (Mr. A. P. Gould), 1184

Aspects of Patients before and after Operation in a Case of Ankylosis of the Jaw (Mr. Barker), 1190

Diagrams illustrating the Changes of the Heart Sounds (Dr. Ewart), 1241-45

Specimens showing the Causes of Failure in the Treatment of Club-foot (Mr. Fisher), 1249

Map of Arles, showing the Incidence of Cholera in 1892, 1279

Laryngoscopic Views of a Growth from the Cricoid in a Case of Myxochrondroma of the Larynx, with a representation of the Tumour after removal, also the Artificial Larynx used in the case (Dr. J. W. Bond), 1309-10

Drawings representing the Loss of Osseous Covering in a case of Compound Fracture of the Skull (Dr. Lediard), 1313

View of Parts in a Case of Scirrhous Cancer of the Chest, 1318

Diagrams illustrating the Implement used for the Prevention of Shortening &c. in the Treatment of Fracture (Mr. Keetley), 1378

Diagrams showing the Implements used, and the direction taken by Incisions, in the operation of Extraction of Hard Cataract (Mr. T. Pridgin Teale), 1428

Illustration of the mode of treating Undescending Testicle (Mr. L. A. Bidwell), 1439

Four Views of Sarcoma of the Skull, the growth being of Traumatic Origin (Mr. Hewetson), 1442

Sectional View of Tumour of the Optic Nerve (Dr. Rockliffe), 1444

Diagrams illustrating the Muscle-curves Developed under Normal Stimulation and under the Action of Various Chemical Agents (Dr. Leech), 1499-1505

END OF THE FIRST VOLUME FOR 1893.

PRINTED and PUBLISHED by the REGISTERED PROPRIETORS at No. 423, Strand, and Nos. 1 and 2, Bedford-street, Strand, in the Parish of St. Martin-in-the-Fields, Westminster, in the County of London.—Saturday, June 24th, 1893.
